

Impact of Row Duplication on LnCVR: Small Sample (20/trial arm)

Impact on LnCVR, % significant LnCVR, and % significant LnCVR outliers

Best responders (smallest HbA1c post-treatment) duplicated

%LnCVRs ($p \leq 0.05$) by Row Duplication Level

%LnCVRs ($p \leq 0.05$ & $> 3\text{-sigma}$) by Row Duplication Level
