# Impact of Row Duplication on LnCVR: Large Sample (250/trial arm)

Impact on LnCVR, % significant LnCVR, and % significant LnCVR outliers

Best responders (smallest HbA1c post-treatment) duplicated

Significance ● Not Significant ● Significant

%LnCVRs (p ≤ 0.05) by Row Duplication Level

%LnCVRs (p ≤ 0.05 & > 3-sigma) by Row Duplication Level
